DIABOLO RISER

Divalto ref. no. A0014106 ET / QU Product Code AD

ARTICULATION Ø 60MM

Divalto ref. no. A0014107 Product Code AR

POSSIBLE CONFIGURATIONS

- + 1 articulation (x 2 at the ends)
- 2 clamping supports 2 threaded rodes included 1 diabolo (x2 at the ends)
 - 2 clamping supports 2 hreaded rodes inclu-
 - + 1 articulation (x 2 at the ends) + 1 diabolo (x2 at the ends)
- It is also possible to add a TCONEKT extender / Ref. no. Divalto A0014109 <=> contact the technical service department

FASTENING OF SHORT RAIL

Divalto ref. no. A0014133 Product Code R25

- 1 standard fastening on intermediate interfaces
- 2 fastening at the ends

COMPOSANTS

MCONEKT

ROPE ACCESS TROLLEY

Divalto ref. no. A0014140 Product Code R53

Standard trolley in 304 grade stainless steel for use on ground, wall, or ceiling systems. It is designed for short rail lengths and for configurations with low frequency of use and/or situated close to the user (max of 2 m).

WHEELED TROLLEY

Divalto ref. no. A0014139 Product Code R52

Wheeled trolley in 304 grade stainless steel for use on ground, wall, or ceiling systems. It allows very smooth gliding over the rails gthanks to its 12 D15 rollers and can be used with all types of self-retracting fall arresters (up to a maximum of 10 kg).

7

FASTENING OF SHORT RAIL

Divalto ref. no. A0014133 Product Code R25

Fastening system which connects the CONEKT rails to the host structure.

2

FASTENING OF LARGE RAIL

Divalto ref. no. A0014134 Product Code R25XL

Large fastener which is used only for direct fastening to the support.

ACCESS SIGN

Ref. no. Divalto A0015025 Product Code S20TRAD

The sign must be positioned at the lifeline access point. It is a warning of a fall hazard and the need to wear a harness beyond this point.

LIFELINE DATA PLATE

Ref. no. Divalto A0015024 Product Code S21TRAD

It must be positioned on the lifeline anchoring device. It is the lifeline's identification card.
